SUMMARY

Aspiring Project Manager, UI/UX Designer, and Frontend Developer with a passion for creating user-centered digital solutions and enhancing user experiences. Skilled in project coordination, UI/UX design, frontend development, wireframing, prototyping, and web development. Possesses strong leadership, communication, teamwork, and problem-solving abilities, with experience coordinating academic projects and collaborating effectively within teams. Known for an analytical mindset, attention to detail, and curiosity for exploring emerging technologies and innovative solutions. Seeking an internship opportunity in Project Management, UI/UX Design, or Web Development to apply technical and organizational skills while contributing to impactful projects and professional growth.

EXPERIENCE

- Rajarata University of Sri Lanka (Academic Project)**
Project Coordinator / Team Lead

May 2025 - June 2026

 - Coordinated a team of 4 members and ensured 100% milestone completion before deadlines.
 - Managed project timelines and task boards, ensuring milestones were met on schedule from ideation through final presentation.
 - Tracked deadlines, deliverables, and project updates daily, proactively following up with team members to resolve blockers.
 - Organized project briefs, documentation, and presentation materials, maintaining clear records for faculty and external stakeholders.

EDUCATION

- Bsc in Applied Sciences (Reading)**
Rajarata University of Sri Lanka

Feb 2023 - Present
- BEng(Hons) in Software Engineering**
London Metropolitan University
(Esoft Metro Campus)

Sep 2022 - Sep 2023
- HND in Software Engineering**
Person BTEC
(Esoft Metro Campus)

Mar 2021 - Sep 2022
- Diploma in English**
Esoft Metro Campus

Mar 2021 - Sep 2021

PROJECTS

- **SMART Kidney Care – Early Detection of Chronic Kidney Disease, Dynamic Stage Monitoring, and Progress Tracking** (Project Lead)

Developed an AI-powered healthcare system for early detection and stage prediction of Chronic Kidney Disease (CKD) using Machine Learning and Deep Learning models.

- Conducted Exploratory Data Analysis (EDA) and Data Preprocessing on healthcare datasets.
- Built and evaluated Machine Learning models using Logistic Regression and SVM.
- Developed a Deep Learning model for CKD stage prediction.
- Created data visualizations, performance metrics, and model evaluation reports.
- Led Requirements Gathering, System Analysis, and project planning activities.
- Coordinated team collaboration, documentation, and project deliverables.
- Presented project outcomes and technical findings to evaluators.
- Designed UI/UX prototypes and user interfaces using Figma, focusing on usability and responsive design.
 - Technologies: Python, FastAPI, Machine Learning, Deep Learning, MySQL
 - Models Used: Logistic Regression / SVM (Early Detection), Deep Learning Model (Stage Prediction)

- **Image Classification of Fashionable Casual Wear from User-Uploaded Images**

Developed a CNN-based fashion image classification system capable of identifying 15 clothing categories.

- Built a Flask web application for real-time image upload and prediction.
- Applied deep learning, image preprocessing, and model evaluation techniques to improve classification performance.
 - Technologies: Python, TensorFlow/Keras, CNN, Flask, HTML, CSS, NumPy, Pandas

- **Smart Vehicle Booking & Trip Advisor**

Developed a web application for vehicle booking with an intelligent recommendation system that suggests the best vehicle for a trip. Utilized HTML, CSS, PHP, JavaScript, Python, and Decision Tree algorithms for efficient booking vehicle

- Implemented Decision Tree algorithm for recommendation system
- Applied data preprocessing techniques for model accuracy
 - Technologies : HTML, CSS, PHP, JavaScript, Python, and Decision Tree

- **Web Development Project**

- Developed a online coding bootcamp website
 - Technologies : HTML, CSS, PHP, JavaScript

- **Developed a E-Apartments system**

- Developed a system using c# .Net Windows Forms Application
 - Technologies : C#

SKILLS

Professional Skills

- **Languages** - (Python, C++, C, R, PHP, C#)
- **Web Development** - (HTML, CSS, JavaScript, bootstrap, Laravel, REST API Development)
- **Machine Learning & AI** - (Scikit-learn, TensorFlow / Keras, Logistic Regression, Support Vector Machine (SVM), Decision Trees, Deep Learning, Data Preprocessing, Exploratory Data Analysis (EDA), Model Evaluation)
- **Data Analysis & Visualization** - (Pandas, NumPy, Matplotlib, Seaborn, Statistical Analysis)
- **Database** - (MySQL, SQL, SQL Server)
- **Tools & Platforms** - (Git & GitHub, Postman, VS Code, Figma)
- **UI/UX Design** - (User Interface Design, User Experience Design, Wireframing, Prototyping, User Research, Usability Testing, Design Thinking, Responsive Design, Information Architecture, Figma)

Personal Skills

- Innovative and Creative
- Teamwork
- Leadership Qualities
- Learner
- Communication

INTERESTS

- Software Development
- Full Stack Development
- Front-End Development
- Project Management
- UI Designing and Development
- Web Development

LANGUAGES

- English
- Sinhala
- Tamil (Elementary)

ACHIEVEMENTS

- **6th Place among the Top 10 Best Research Projects at Rajarata University of Sri Lanka (2026)**
SMART Kidney Care – Early Detection of Chronic Kidney Disease, Dynamic Stage Monitoring, and Progress Tracking
- 2nd Runner-Up – Inter Faculty ELLE Championship 2024 – Rajarata University of Sri Lanka.
- 2nd Runner-Up – Inter Faculty Freshers' ELLE Championship 2024 – Rajarata University of Sri Lanka.

EXTRACURRICULAR ACTIVITIES / LEADERSHIP & VOLUNTEERING

- Participant in Western Music Skill Development Programme – Rajarata University of Sri Lanka.
- Contributions to the successful organization of FASEXPLORE 2025 Science Exhibition, Rajarata University of Sri Lanka.
- Participating to the Soft Skills+ 2019 programme- SLIIT Business School
